Text citation:

Explanation: This patent was issued in 1988. I. M. Smith is the inventor who holds the patent right. The patent number is a unique identifying code given to every patent. In this reference example, the patent number represents a utility patent because there is no letter prefix. If this were a nonutility patent, such as a design patent (coded with a D), the patent number in the reference and citation would be D123,445.
